

ABOUT ISOLAB

Starting on its foundation in 1996, ISOLAB GmbH has been a company that relies on its products of highest quality, puts great emphasis on customer satisfaction as well as service quality and sustains the strength of its past into the future.

Based on the principles of innovative approach and entrepreneurial vision, ISOLAB has been dedicated to provide latest products and solutions to its customers for daily work in universities, institutions, laboratories, research and applications in various industries. The success we achieved in laboratory consumables is a clear evidence of that customer trust.

Our main aim is to desire our work to support worldwide challenges, both through our products and also through our commitment to society. Innovative spirit, quality focus and customer orientation are simply enough to describe the core vision of ISOLAB.

Responsibility for our products will always be at the core of our corporate responsibility. Here, we are driven by our ethical standards as well as our high expectations for our products in terms of safety and environmental compatibility.

ISOLAB has developed a global support network for its customers all over the world. We maintain the distribution of our products in Europe, Asia, Africa, Middle East, America and in Oceania. Our close relationships with more than 60 sales partners guarantee our customers ready and prompt access to our products.

In close cooperation with all our staff and with the active involvement of our customers and suppliers, ISOLAB has established a quality management system that conforms to DIN EN ISO 9001:2008 and which is integrated into daily practice.

The requirement of our customers for our company to develop and manufacture reliable and safe products in accordance with the highest possible international quality standards is at the very center of our quality concept.

Equipped with qualified workforce, hi-tech equipment and adequate auxiliary systems, this very concept assures ISOLAB quality and transforms into the worldwide ISOLAB brand.
