CHROMOS LLC is a scientific and technical enterprise in the field of production and supply of analytical and measuring equipment. Leading specialists localized production of gas laboratory and industrial chromatographs of the CHROMOS brand, liquid chromatographs, laboratory furniture, as well as block boxes for quality control of products in the UAE, Dubai. A service department for the repair of laboratory equipment, a training center for conducting advanced training courses will be established on the basis of the enterprise.

Gas laboratory and industrial chromatographs of the CHROMOS brand have software in Uzbekistan, Belarus, Kazakhstan with many innovative auxiliary algorithms. Direct contact with system developers ensures method reliability control at all stages of analysis. The ease of use of the equipment and the accuracy of the indicators will allow you to perform the analytical task at the highest possible level with a minimum expenditure of time and money. Since we are a manufacturer, we are ready to consider various “non-standard” tasks with the possibility of developing additional sample injection units and installing additional detectors.

The reliability of the devices has been repeatedly confirmed by specialists of domestic and foreign companies. Long-term relationships with suppliers allow us to offer competitive prices that are comfortable for the local consumer and high quality of the products supplied.
