

METTLER TOLEDO Highlights Regional Trainings, New Products at ARABLAB 2018

Skilled staff from METTLER TOLEDO's [Dubai Competence Center](#) will unveil new balance and water-content determination technology. Additionally, ARABLAB attendees who are interested in the new training courses offered by the Competence Center have chance to win one course of their choice during the show.

Greifensee, Switzerland—19.12.2017—METTLER TOLEDO is pleased to announce it will once again participate in ARABLAB, one of the world's most influential trade shows, 19-22 March 2018 at the Dubai World Trade Center. Specialists will demonstrate new products, represent the company's established lab-equipment portfolio, and take reservations for both scheduled and on-demand Dubai Competence Center trainings.

Center staff are thrilled to unveil the METTLER TOLEDO XPR Precision Balance and InMotion Karl Fischer Oven Autosampler. However, the newly developed training program really has regional clients talking, said Marco Mayr, General Manager, METTLER TOLEDO. "Our year-round presence emphasizes our commitment to markets in and around the Middle East, and we are excited to be offering attendees a chance to experience this commitment and see how we can help them improve their processing speed and accuracy," he added.

In addition to the new course offerings, center staff will be showcasing the [XPR Precision Balance](#). This balance is setting new standards in reliability and weighing performance across industries with a unique SmartPan weighing pan that delivers 0.1 milligram readability. Additionally, its revolutionary connectivity options help to support increasing demands for process and data-handling consistency, efficiency and compliance.

Another product being introduced is the new [InMotion Karl Fischer Oven Autosampler](#). The autosampler supports precise, efficient Karl Fischer measurements. Innovative features and accessories improve workflow efficiency and user safety. Additionally, an ergonomic space-saving design makes it the perfect instrument to have in the lab for better accuracy and productivity during important water-content determinations.

"Our new products and the comprehensive Competence Center training courses mean we are ready to help lab operators and production managers deliver greater accuracy, speed and cost-effectiveness to their clients," said Mr. Mayr. "We are working to ensure that all those using METTLER TOLEDO products throughout the region can get the most from their equipment. I

look forward to meeting our esteemed regional partners and learning more about how we can continue to improve our local service in the future.”

To discover more about how METTLER TOLEDO can help you develop highly accurate analytical workflows, please visit Dubai World Trade Center Sheikh Saeed Hall, stand number 532 or visit the ARABLAB [website](#).

About METTLER TOLEDO

METTLER TOLEDO is a leading global supplier of precision instruments and services.
