

Presentation of new products at ARABLAB 2019

Ortoalresa wants to celebrate its 70th anniversary with the launching of several new products. As a manufacturer, Ortoalresa offers a complete range of centrifuges worldwide. On the other hand, the commitment to excellent quality and cost efficiency, service, short delivery time and innovation offers to the customers a reliable supplier.

Along Arablab 2019 Ortoalresa will display the high capacity centrifuge Digtor 22, fitted with the rotor combined for microtiter plates and tubes.

This combination will be the perfect one for those quality control labs, hospitals, Pharma labs, Universities, which ask for a demanding tool with updated control elements.

As TFT color touch screen, providing them with several options that made their work easier.

Come to visit us at booth No. 646 Hall S2.
