

SEFA Presentations at ARABLAB 2022

Innovative Labs Throughout the World — Switzerland

The Scientific Equipment & Furniture Association (SEFA) is featuring a series of presentations focused on innovative lab projects from throughout the world. These presentations will take place inside the SEFA Theatre within the trade show area. Join SEFA and Laborplaner Tonelli AG on October 24th at 12:45 for a tour of **The Swiss Tropical and Public Health Institute in Allschwil** and later, at 14:45 a presentation on The **University of Zurich-Irchel, Zurich, Switzerland**.

The Swiss Tropical and Public Health Institute (TPH) is a world leading institute in global health with a particular focus on low and middle income countries. Associated with the University of Basel, Swiss TPH combines research, education and services at the local, national and international level. Over 900 people from 80 nations work at Swiss TPS focusing on infectious and non-communicable diseases, environment, society and healthy as well as health systems and interventions.

The University of Zurich-Irchel, Zurich complex is the 5th expansion stage and complements the existing building structure with two 6-storey Buildings, one 1-storey building and two courtyards. The two laboratory buildings are connected to the existing stages on each floor by the faculty axis.

The main purpose of the new building is to house the UZH's chemical research. Other uses are: Biology BSL1 & 2, high pressure research, radiochemistry B, mechanical workshops, laser laboratories, X-ray structure analysis, mass spectroscopy, NMR high and medium field equipment.

About the Speaker

Dario Tonelli is the Managing Director of Laborplaner Tonelli AG. He founded the company in 2004 and has managed the company since. After completing his apprenticeship as a cabinetmaker, he obtained a degree in project management from the University of Applied Sciences and Arts Northwestern Switzerland (FHNW). Today, Laborplaner Tonelli AG is one of the most innovative and experienced lab planning companies in Switzerland.

Continuous innovation in planning methods and laboratory solutions is at the heart of the company's business model, which further focuses, among other things, on modular planning, transparency and visual communication in making the laboratory more understandable, efficiency in logistics, and laboratory planning processes. Product-independent planning for lab facilities in the field of industry, research, medicine and education is now the core business of the company. From its base near Basel, Laborplaner Tonelli AG conducts surveys and orders not only in Switzerland but worldwide. Its clients include companies such as F. Hoffmann-La Roche AG, Novartis Pharma AG, universities, hospitals and government institutions. Dario is a member of the European Association for Sustainable Laboratories (EGNATON) as well as a member of Advisory Board of the Scientific Equipment and Furniture Association (SEFA).
