Ennead Architects' Sarafan ChEM-H and Wu Tsai Neurosciences Institute at Stanford University wins the 2023 SEFA Lab of the Year Award

Columbia, SC — The 2023 SEFA Lab of the Year Award was announced on November 2nd, 2023 at SEFA's Annual Meeting in Orlando, Florida. The two finalists for the 2023 SEFA Lab of the Year Award gave presentations showcasing their stunning lab projects. Once both finalists presented, the judges for this year's award announced that the Sarafan ChEM-H and Wu Tsai Neurosciences Institute at Stanford University was the winner of the 2023 SEFA Lab of the Year Award. This project was presented by Stephen Chu and Don Weinreich of Ennead Architects.

Ennead has been a leader in the design world for decades and is known for its innovative cultural, educational, scientific, commercial, and civic buildings. From biomedical research to engineering to commercial life sciences, Ennead Architects has a diverse portfolio of laboratory buildings for teaching, research, and innovation that respond to institutional mission and optimize the quality of working environments so that scientific discovery can thrive. For further information, visit www.ennead.com or contact Ennead Architects at info@ennead.com, 1 World Trade Center, 40th Floor, New York, NY 10007, (212) 807-7171.

The Scientific Equipment and Furniture Association is a United States based not-for-profit whose 163 members from 27 different countries include the world's leading laboratory grade furniture manufacturers and the architects, lab planners, and engineers who design innovative laboratory buildings throughout the world.

The SEFA Lab of the Year Award is a tremendous tribute annually conveyed to a team of professionals for creating an outstanding laboratory building or complex of buildings. This award expresses the highest honor that can be given to a laboratory building, bringing enormous pride to those having participated in such an effort. This recognition is not just for the design team members, but for all of those that worked in the project, starting with the client representatives and design team, but also including the material vendors and contractors.
